

REACH Declaration

Within the meaning of the REACH regulation (EC) No 1907/2006, Schaltungsdruck Storz GmbH + Co. KG is a so called Downstream User. We exclusively produce non-chemical products that do not release chemical substances when used as intended.

Therefore, our products are neither subject to registration duties, nor do they underlie the obligation to create or publish safety data sheets.

We regularly check our products on substances that are classified as of very high concern by the European Chemical Agency (ECHA) and are by this part of the so called Candidate List.

As things stand, our products do not contain any substances on the Candidate List in concentrations above the specified limits (0.1%). According to article 33 of the REACH regulation, we will promptly inform you in case that substances of the candidate list become part of our products in a concentration higher than the acceptable limits.
